Experience

Team Lead, Full Stack Development, CSE110 Course, UCSD – San Diego, CA

Sep 2025 - Dec 2025

- Led a 5-person Agile team a TypeScript educational fighting game across 3 sprints, 300+ commits, and 14+ stand-ups
- Engineered the front-end UI for the core game, menu, and bonus screens, contributing 2,000+ lines of code 100+ commits.
- Iterated through 2 rounds of alpha testing, incorporating feedback from 10+ users to fix bugs and refine experience.
- Shipped a polished & fully playable game adopted by 15+ end users beyond the classroom and awarded a top course grade.

Curriculum Developer & Instructor, CSforeach, USCD – San Diego, CA

Oct 2022 - Present

- Designed 10+ CS workshops spanning Python, ML, APIs, HTML/CSS, and more by building presentations and live demos.
- Taught 100+ students across 10+ schools over 4 years, fielded 500+ follow-up questions and earned invitations to return.
- Collaborated with an evolving team to iteratively develop and deliver curriculum across difficulty levels to drive learning interest.

Area Director, Scouting America – Ogden, UT

Jun 2019 - Aug 2024

- Managed a team of up to 8 instructors serving 150+ students daily and ensured team performance and customer satisfaction
- Facilitated training, team building, conflict resolutions, and onboarding to new curriculum to ensure consistent program delivery.
- Streamlined scheduling and teaching efficiencies to sustain full capacity while reducing needed headcount from 8 to 4.
- Received 50+ positive reviews and 15+ personal commendations for personal & team performance in personable service.

Projects

Group Developed Children's Game

github.com/thatchereames/mojo-dojo-multiply

- Collaborated with individuals in a group to develop a web app that teaches children multiplication for a term project
- Incorporated user feedback collected from various beta testers on usability and enjoyment in order to improve the final product

Personal Code Base Server

- Deployed an Ubuntu-Linux based ssh server as a remote working environment to host projects as an isolated asset
- Maintain environment connection & stability while adding software packages as workflow needs change

Custom Terminal Shell

github.com/CSE29Winter2025Students/pa4

- Implemented a simplified version of PowerShell for a terminal in C using memory allocation, process forking, and terminal I/O

Awards & Certifications

Eagle Scout Award The highest award in Scouting that is indicative of exemplary leadership, dedication, and knowledge
