Education

University of Southern California

Aug 2026 - May 2028

Master of Science – Computer Science

GPA 4.00

– **Relevant Coursework:** Database Systems, Analysis of Algorithms, User Experience Design & Strategy

University of California San Diego

Sep 2022 - Jun 2026

Bachelor of Science – Mathematics and Computer Science

GPA 3.22

– **Campus Affiliations:** Beta Theta Pi Fraternity Executive, CSforeach Student Organization Member

– **Relevant Coursework:** Machine Learning Algorithms, Data Science in Python, Managing Diverse Teams, Linear Algebra

Skills

Development: Team Development, Supervised Learning, Object-Oriented Programming, Runtime Analysis, Agile Methodology

Teamwork: Group Collaboration, Team Management, Problem Solving, EDGE Method Education, Spanish & English Bilingual

Languages: Next.js, React, TypeScript, SQL, Java, Python, Numpy, SK Learn, Pandas, C, C++, HTML & CSS

Technologies: VS Code, GitHub CoPilot, Claude Code, AI Workflows, AWS, Git, GitHub, Bash, LucidChart

Experience

Financial Software & Database Intern, Related Companies – New York, NY

Jun 2026 - Present

- Resolved 10 to 15 weekly IT tickets by correcting the financial SQL Database managing the firm's \$70B+ in real estate assets.
- Scripted SQL commands for complex queries, manipulations, and data correction to 200+ of entries across various tables.
- Restored General Ledger integrity by diagnosing and fixing a bug resulting in unblocking workflows across the organization.
- Architected integration diagrams mapping 20+ external systems which supports a migration spanning 2,000+ property LLCs.

Team Lead, Full Stack Development, CSE110 Course, UCSD – San Diego, CA

Sep 2025 - Dec 2025

- Led a 5-person Agile team a TypeScript educational fighting game across 3 sprints, 300+ commits, and 14+ stand-ups.
- Engineered the front-end UI for the core game, menu, and bonus screens, contributing 2,000+ lines of code 100+ commits.
- Iterated through 2 rounds of alpha testing, incorporating feedback from 10+ users to fix bugs and refine experience.
- Shipped a polished & fully playable game adopted by 15+ end users beyond the classroom and awarded a top course grade.

Curriculum Developer & Instructor, CSforeach, USCD – San Diego, CA

Oct 2022 - Present

- Designed 10+ CS workshops spanning Python, ML, APIs, HTML/CSS, and more by building presentations and live demos.
- Taught 100+ students across 10+ schools over 4 years, fielded 500+ follow-up questions and earned invitations to return.
- Collaborated with an evolving team to iteratively develop and deliver curriculum across difficulty levels to drive learning interest.

Projects

Web-Based Educational Game

github.com/thatchereames/mojo-dojo-multiply

- Built a game in TypeScript with Konva visuals, JSON/local-storage persistence, and structured for future database integration.
- Designed the game UI, engineered the game-loop & screen-transition logic, fixed a major state-leak bug with conditional resets.

Self Hosted Development Server

- Deployed a headless Ubuntu-Linux server to isolate memory-unsafe C projects, managing boot & services via systemd units.
- Enable secure remote development through SSH key auth, port forwarding, and dynamic DNS, with Git remotes to GitHub.

Custom Unix Shell

github.com/CSE29Winter2025Students/pa4

- Built a Unix shell in C using fork, exec, and kill to spawn and manage child processes for built-ins like cd, pwd, and ls.
- Implemented features of batch mode execution, command history, and whitespace parsing using malloc memory management.

Awards & Certifications

Eagle Scout Award The highest award in Scouting that is indicative of exemplary leadership, dedication, and knowledge.

Director Training Course Certification Course certification encompassing many of the necessary skills to lead a team.
