Education

University of Southern California

Aug 2026 - May 2028

Master of Science – Computer Science, Data Science Emphasis

GPA 4.00

– **Coursework:** Database Systems, Analysis of Algorithms

University of California San Diego

Sep 2022 - Jun 2026

Bachelor of Science – Mathematics and Computer Science

– **Coursework:** Machine Learning Algorithms, Linear Algebra, Multivariate Calculus, Statistics, Data Science in Python

Skills

Development: Team Software Development, Supervised Learning, Object-Oriented Programming, Runtime Analysis, Agile

Teamwork: Group Collaboration, Team Management, Problem Solving, EDGE Method Education, Spanish & English Bilingual

Languages & Libraries: Java, Python, NumPy, Scikit-learn, Pandas, Next.js, React, TypeScript, SQL, C, C++, HTML & CSS

Technologies: MCP, AWS, Cloudflare Workers, VS Code, AI Assisted Workflows, GitHub Copilot, Claude Code, Git, LucidChart

Experience

Full Stack AI Product Engineering Intern, Quikturn – New York, NY

Aug 2026 - Jan 2027

- Overhauled existing backend analytics into a consolidated logging system with TypeScript on Cloudflare Worker infrastructure.
- Extended internal Model Context Protocol (MCP) to improve cross-system interoperability and data surfacing.

Financial Software & Database Intern, Related Companies – New York, NY

Jun 2026 - Aug 2026

- Resolved 10 to 15 weekly IT tickets by correcting the financial SQL Database managing the firm's \$70B+ in real estate assets.
- Scripted SQL commands for complex queries, manipulations, and data correction to 200+ entries across various tables.
- Architected integration diagrams mapping 20+ external systems to support a migration spanning 2,000+ property LLCs.

Team Lead, Full Stack Development, UCSD CSE Course – San Diego, CA

Sep 2025 - Dec 2025

- Led a 5-person Agile team to build a TypeScript educational fighting game across 3 sprints, 300+ commits, and 14+ stand-ups.
- Engineered the front-end UI for the core game, menu, and bonus screens, contributing 2,000+ lines of code over 100+ commits.
- Shipped a polished & fully playable game adopted by 15+ end users beyond the classroom and awarded a top course grade.

Curriculum Developer & Instructor, UCSD Student Org – San Diego, CA

Oct 2022 - Jun 2026

- Designed 10+ CS workshops spanning Python, ML, APIs, HTML/CSS, and more by building presentations and live demos.
- Taught 100+ students across 10+ schools over 4 years, fielded 500+ follow-up questions and earned invitations to return.
- Collaborated with an evolving team to iteratively develop and deliver curriculum across difficulty levels to drive learning interest.

Projects

Personal Portfolio Website

github.com/thatchereames/portfolio-site

- Rebuilt site in Next.js and TypeScript after moving off Ruby on Rails, choosing a stack better scoped to the site's needs.
- Deployed on AWS Amplify with automatic builds from GitHub, simplifying from an Elastic Beanstalk & CodePipeline tech-stack.

Web-Based Educational Game

github.com/thatchereames/mojo-dojo-multiply

- Built a game in TypeScript with Konva visuals, JSON/local-storage persistence, and structured for future database integration.
- Designed the game UI, engineered the game-loop & screen-transition logic, fixed a major state-leak bug with conditional resets.

Custom Unix Shell

github.com/thatchereames/custom-unix-shell

- Built a Unix shell in C using fork, exec, and kill to spawn & manage child processes and built-in features like cd, pwd, & ls.
- Implemented features of batch mode execution, command history, and whitespace parsing using malloc memory management.

Awards & Certifications

Eagle Scout Award — Highest award in Scouting that is indicative of exemplary leadership, dedication, and knowledge.

Outstanding Teacher Award — Excelled in teaching young adults fundamental CS topics over 4 years in a UCSD student org.

Director Course Certification — Trained in the necessary skills to lead a team in dynamically solving customer needs.
